

Use Case – Leading wealth management firm

Optimized onboarding, improved client experience.

“The inefficiency of the earlier process delayed client onboarding leading to revenue loss as well as higher administrative expenses. With OPL, we are able to provide a better client experience while also helping grow our business faster.”

- Vice President

PROBLEM STATEMENT

Existing onboarding process required clients to review information sent to them by email, print, fill and send back scanned documents.

Inaccurate data capture process.

Manual follow up and lack of completeness.

Legacy systems, lack of connectivity.

OUR SOLUTION

Digitization of client on-boarding process

Optimized customer onboarding.

Smart documents created for gathering information.

Digitized the KYC process.

Enhanced tracking of information to enable a higher layer of compliance.

Leveraged SaaS platform to enable client access at any time from any device.

OUTCOME & BENEFITS

Reduction in time to onboard clients.

Lower administrative costs.

Enhanced customer experience.
